WEEKLY VOCABULARY: The V sound is notoriously difficult for Thai speakers to pronounce correctly. Say each word and ask the class to repeat after you three times. Now walk around the room and ask each student to repeat it until their pronunciation is satisfactory. When you're finished say the word again and ask the class to repeat after you three more times.

VOCABULARY GAME: Ask two students to go to the board and get ready to write. Go to the back of the room and ask a third student to pick a word from today's lesson. Call out the word and see who can write it correctly first. Now ask the first two students to pick two more students for the next round. You can divide the students into two teams to make this more competitive.

PRONUNCIATION EXERCISE: In this exercise we'll practice pronouncing some easy words that start with V. Show students how to curl their lower lip under their upper teeth and explain that if they don't do this, they'll say B instead of V. You can ask them to talk into a cell phone with speech recognition to see if they say "van" or "ban", "very" or "berry".
