**NOTES:**

Words that start with A are pronounced two different ways – soft and hard. All, Are, Arm were removed. The double L in All and Bell were difficult for students.

The B sound corresponds to several consonants in the Thai language. Tell students to relax their lips and use a very small puff of air. We will not use words with BR or BL in this lesson because they are hard to pronounce. Other B words: Bee, Bill, Blue, Black, Breakfast, Bread, Bring. Bell and Bug were removed because they were too difficult.
