

Lesson 6: F

Instructor Notes: Words that start with the letter F can be challenging for Thai speakers, even though there is an F sound in Thai, because of the combinations of consonants. "Fruit" is difficult because of the T on the end. Some common English words not covered here include "Face", "Fan" and "Full" are too difficult to include here and will be covered in the next course

Vocabulary

คำศัพท์

- | | |
|----------|-----------|
| 1. Fall | 11. Fly |
