

Lesson 8: H

Instructor Notes: The Thai alphabet has at least one letter that corresponds to the English consonant H. We are not practicing “Horse” or “House” because of the ending S-sound. We are not practicing “Hall” or “Hill” because of the ending L-sound. “Hard”, “Her”, and “Hug” will be covered in the next course.

Vocabulary

คำศัพท์

- | | |
|-----------|------------|
