

Lesson 1: **Science**

Name: _____

Date: _____

VOCABULARY

คำศัพท์

science วิทยาศาสตร์

universe จักรวาล

Earth โลก

scientists นักวิทยาศาสตร์

telescope กล้องส่องทางไกล

microscope กล้องจุลทรรศน์

magnifier แว่นขยาย

rock hammer ค้อนหิน

test tubes หลอดทดลอง

math คณิตศาสตร์

$$v^2 = v_0^2 + 2a(s - s_0)$$

READING

การอ่าน

1. Science is everything we know about our universe.
2. The universe is everything on Earth and in the sky.
3. Scientists are people who study our universe.
4. Telescopes let scientists see the stars.
5. Microscopes let scientists look at very small things.
6. Scientists who study rocks use magnifiers and rock hammers.
7. Test tubes are small glass bottles used to study chemicals.
8. Scientists use math to write about science.

QUIZ

แบบทดสอบ

Microscope

- a) Scientists use this to look at very small things.
- b) Scientists use this to look at the stars.
- c) Scientists use this to write about science.
- d) Scientists use these to study chemicals.

Telescope

- a) Scientists use this to look at very small things.
- b) Scientists use this to look at the stars.
- c) Everything on Earth and in the sky.
- d) Scientists use these to study chemicals.

Math

- a) Scientists use this to look at very small things.
- b) Scientists use this to look at the stars.
- c) Scientists use this to write about science.
- d) Scientists use these to study chemicals.

Universe

- a) Scientists use this to look at very small things.
- b) Everything on Earth and in the sky.
- c) Scientists use this to write about science.
- d) Scientists use this to look at the stars.

Test tubes

- a) Everything on Earth and in the sky.
- b) Scientists use this to look at the stars.
- c) These let you see very small things.
- d) Small glass bottles used to study chemicals.

Scientists

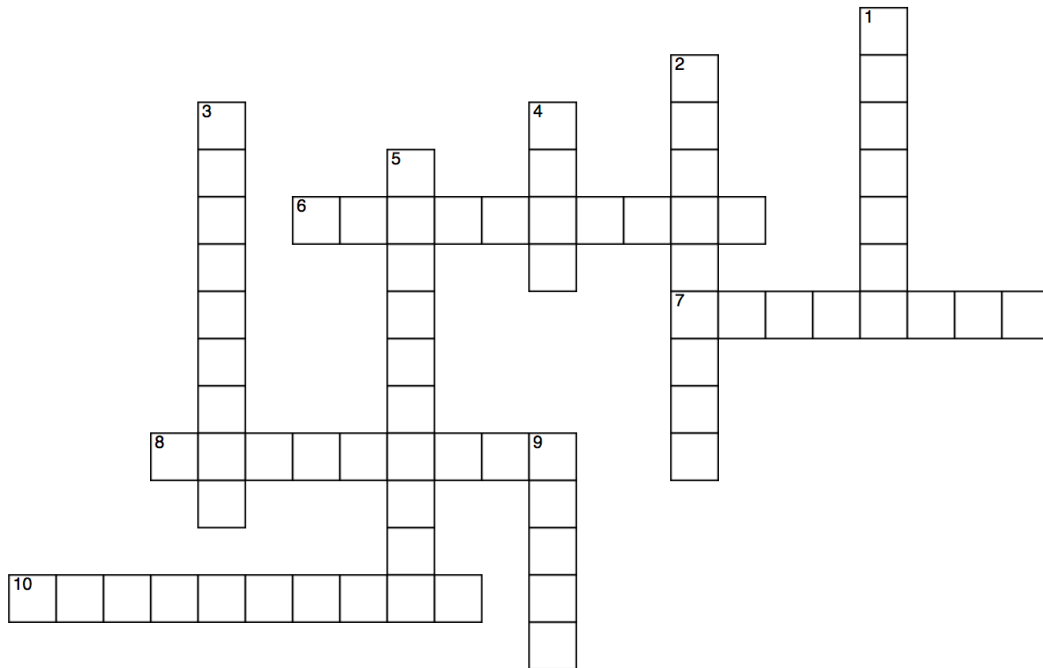

- a) People who teach school.
- b) People who play football.
- c) People who drive cars.
- d) People who study the universe.

Earth

- a) Our planet.
- b) This lets you see stars.
- c) People who study the universe.
- d) Everything in the sky.
